DESCRIPTION OF STAMP

STAMP is a Software-as-a-Service (SaaS) solution to help vendors and suppliers systematically determine what is most important to each business customer, see how well they are delivering against their client’s needs, determine the actions they need to take to improve client satisfaction, provide alerts when they are underperforming, track trends over time, and benchmark themselves against their peers and competitors.

STAMP creates numerous proprietary dashboards visualizing the data it collects, including a dashboard on every client account visualizing how well the vendor or supplier is delivering on the needs of each client; STAMP also provides an account manager dashboard, enabling the vendor or supplier to see how well each account manager is performing across their book of business.

Stonegate provides licensed software products, data solutions, and market intelligence to help companies better acquire and retain customers, fueling topline growth. For information on becoming a STAMP client please contact STAMP by email info@stonegateadvisors.com or by calling 312-397-1111.
